City to sell surplus industrial land

The City of Campbell River will sell vacant industrial land at 4300 Midport Road.

“The sale and future development of this parcel by the purchaser will create new opportunities for light industrial businesses and create additional tax revenue for the City,” says acting Mayor Marlene Wright.

During a review of City-owned properties conducted in 2012, this property was found to be surplus to the City’s needs. The sale has been confirmed, agreements signed, and property ownership will transfer to A.B. Edie Equities on September 1, 2015. The City will receive \$697,500 for this property.
