# Council Candidate: Ken Blackburn

Ken Blackburn has lived and worked in Campbell River for the past 18 years. He is currently the Executive Director of the Campbell River Arts Council and Program Manager for the Museum at Campbell River.

Ken is passionate about Campbell River. He believes that this is an important time for change in our community. New voices are needed to create an economy of positive growth, one based on both our natural geography and our rich culture. Campbell River is poised to be a progressive city of destination for the world.

Leadership needs to be dynamic, engaged and trusted. A leader needs to understand the essential relationship between the private sector and the not-for-profit sector within a community. Both contribute equally to a local quality-of-life and are dependent on each other for economic success.

Ken Blackburn has sat on numerous City committees over the years. He has created over 800 community programs.

# Mayoral Candidate: Micheal Calhoun

The will of the people should be ones driving force.

# Council Candidate: Doug Chapman

Fiscally Conservative, Socially Progressive: Our political representatives are responsible for ensuring that the future residents of our city are looked after. A major part of this is dual-vision; looking at the reality and needs of the present, while simultaneously considering the impact of our decisions 10, 20, 30 years into the future. Making sound financial and operational decisions that help to create the future we want to see for ourselves, and coming generations, is our primary responsibility as leaders. Unhoused people and those battling addiction need our support. We need to take action to provide that support, which in addition to being the right and humane step to take, helps to improve the safety and economic stability of our community. Tax increases need to be kept to a minimum and, at the same time, appropriate residential development needs to be encouraged by the City of Campbell River.

# Mayoral Candidate: Charlie Cornfield

My name is Councillor Charles Cornfield but I prefer just Charlie.

In 1991 my family decided to put our roots down and make Campbell River our home.

My formal education and work experiences are in forestry, natural resources, recreation, tourism and Senior environmental management.

I have served for 17 years as Councillor and 3 years as your Mayor. I bring a tremendous amount of experience and knowledge to the role of Mayor.

I value a city that incorporates the ocean, rivers, streams, parks, and green spaces connecting our neighbourhoods.

I will balance economic, social and environmental issues while moving the community to a bright and promising future.

I am proud of Council's accomplishments and the role I have played.

Rich, poor, young or old, you have a voice with Charlie. I will represent the whole Community. I'm approachable, accountable and I care.

I want to be your Mayor - AGAIN!

# Mayoral Candidate: Kermit Dahl

After 37 years in Campbell River & 4 years as a city councilor I'm ready to step up and campaign for the mayors seat. I am running for the mayors seat with a vision for our city that will include:

1. Preserving what we value as a community
2. Being open to new ideas and hearing what residents and business owners of the city have to say
3. Reviewing all major proposals openly with a focus on what is best for families and businesses that want to live and work where they were brought up

Campbell River is at a crossroad, the city will need strong leadership from mayor & council to navigate the serious issues in front of us, our homeless & lawlessness in our downtown core, housing attainability & availability, and our never ending appetite to raise taxes are 3 key areas the next council will need to focus on.

I'm committed to bringing a vision for the future of our city that will be welcoming & inclusive – a partnership that involves young & old

# Mayoral Candidate: Larry Samson

I am running for the position of Mayor of Campbell River in upcoming municipal election.

I was born and raised in Campbell River; I served this community for 34 years in the Fire Service retiring with the rank of Fire Chief. Throughout my years I have volunteered in many different organizations as well as serving on City Council for 7 years. These life experiences has prepared me to seek the position of Mayor for the City of Campbell River.

We are facing some difficult decisions in the upcoming years; public safety including the deterioration of our downtown and the crisis of our most vulnerable citizens, a City budget that is not balanced even though taxes increased by over 3% this year, threats to our health care system and protection of our natural resources.

People ask why I am running for Mayor “it’s because I strongly believe I can make difference”.

I grew up in Campbell River, raised a family, and established my law practise here. I want to give back to the community that has given me so much and I've done it by volunteering with CRTV, Head Injury Society, Museum, City Airport Commission, and the Community Foundation. Now I want to bring my skills to city council.

I want what you want. A safe community, a place our kids can afford to live in with jobs that allow them to raise a family.

I want an effective city council that is transparent. My priorities include delivering excellent core services, fostering growth and development; and making housing more affordable, controlling property taxes, creating more legal suites, and partnering with first nations.

I am passionate about delivering the best service to Campbell River and if elected, will work to the best of my ability to fulfill my promises to you.

# Council Candidate: Ferris Stirling

Hello Campbell River! I have been fortunate enough to have always called Campbell River my home. Having been born and raised here, I 've been lucky to have made so many friends, clients, teammates, and coworkers over the years. From working at the sawmill, to banking, to helping small businesses, there is no place I would rather be. During this time, Campbell River has more than doubled in size and with that struggles have grown to the point where the city needs to re-focus on making Campbell River healthy and safe for everyone. Campbell River needs a candidate who stands up to Island Health and BC Housing to let them know they must do better for Campbell River, while also lending support to citizens, employees, and businesses. Want a dedicated Campbell Riverite on your side? Please consider me on October 15<sup>th</sup> and let's put Campbell River First!
